### **Karla Miller: Bringing Integrity and Solutions to the 1st Middlesex District**

Lowell, MA– Karla Miller, a longtime resident of Lowell and respected business owner, has formally declared her candidacy to represent the 1st Middlesex district, encompassing Lowell as well as the towns of Dracut, Dunstable, Pepperell, and Tyngsborough, as State Senator.

Karla has called Lowell home for over two decades, where she resides with her husband. A native of Chelmsford where Karla raised her daughter and has a granddaughter that resides there. Balancing her family commitments with a successful business career, Karla epitomizes financial responsibility, fiscal conservatism, and a knack for problem-solving. Her tireless work ethic, unwavering dedication, and commitment to integrity position her to confront the pressing challenges facing our communities.

As State Senator, Karla is poised to bring her exceptional qualities to Beacon Hill at a pivotal moment. She asserts, “Massachusetts is grappling with persistent revenue shortfalls stemming from irresponsible spending and lofty government initiatives, all while confronting with an ongoing and costly immigrant crisis with no resolution in sight, all while decisions are made behind closed doors by the Democratic supermajority.”

“The immigrant crisis has already incurred a staggering one billion dollars in taxpayer expenses, with another billion earmarked in the latest budget proposal. We need to eliminate the sanctuary policies that are taking resources away from our states veterans and families in need.”

Drawing from her experience in the business realm, Karla emphasizes the importance of fiscal prudence. “When revenues fall short, responsible management demands making necessary cuts to maintain financial equilibrium. However, Senator Kennedy seems intent on expanding rather than shrinking government spending. While residents’ pocketbooks are shrinking, the state budget is bloating. As your State Senator I will prioritize the well-being of Massachusetts residents over the interests of the government.”

“I promise to represent the needs of the 1st Middlesex District, by providing commonsense and fiscally responsible solutions to the issues facing the Commonwealth. I will work to reverse the course of our state government is on by making our state a place people will want to live, not leave.”
